CAREER OBJECTIVE

Aspiring App Developer with a strong foundation in Node.js, Express.js, and basic React.js, passionate about building dynamic and efficient applications. Skilled in backend development, API creation, and database integration, with a focus on developing scalable and user-friendly solutions.

SKILLS

Java

- Proficient in Java with a strong understanding of Object-Oriented Programming (OOP) principles.

C#

- Designed and implemented game levels with focus on player experience, object interactions, and smooth gameplay flow.

Express JS(FrameWork)

- Developed web applications and REST APIs using Express.js for efficient routing and middleware management.
- Integrated frontend and backend services using Express.js to create dynamic and responsive applications.

Learning

- React,
- GreenSock Animation Platform (GSPA)

JavaScript

- Strong understanding of JavaScript fundamentals including ES6 concepts, DOM manipulation, asynchronous programming, and OOP principles.

Node JS

- Built backend applications using Node.js with asynchronous programming and server-side functionality.
- Managed file handling, APIs, and application logic for scalable web projects using Node.js.

PL/SQL(DataBase)

- Built basic user interfaces and reusable components using React.js for web applications.
- Worked with React fundamentals such as components, props, state management, and API integration.

INTERNSHIPS

OUTDBOX Internship

- Developed backend functionalities for application development using Node.js, Express.js, and SQL databases.
- Worked on API development, database operations, and server-side logic implementation.

ANGLAA Internship

- Developed responsive web applications using HTML, CSS, JavaScript, Node.js, Express.js, and SQL.
- Worked on both frontend UI development and backend integration for dynamic web functionality.

PROJECTS

Code War Game Project

- Developed an interactive coding-based game using C# where players defeat demons by solving and correcting code challenges.
- Designed gameplay mechanics, coding puzzles, and player progression systems to create an engaging learning experience.

Music App Project

- Developed a real-time music application with room creation and friend invite features for shared music and karaoke experiences.
- Implemented backend services and interactive functionalities using modern web technologies for seamless user interaction.

OUTDBOX Website Project

- Developed the main company website for OUTDBOX with appointment booking and schedule management features.
- Built responsive frontend interfaces and integrated backend systems for client management and booking workflows.

EDUCATION

B tech In Computer Science Engineering

Gandhi Institute of Technology, Visakhapatnam

Expected Graduation : 2027

CGPA : 7.22

OTHER INSIGHTS

Soft skills

- Leadship & Community building
- Teamwork & Problem solving
- Communication & Col laboration
- Adaptability & Initiative

Languages

- English
- Telugu
- Hindi
- Japanese (basics)

Hobbies

- Playing violin
- Writing Novels
- Digital Arts
- Gym
